

CSC1005/CSC1022 Database Lab

Lab 2: First SQL Expressions

Goal: Learn simple SQL syntax and how to write your first queries.

The first SQL programming lab is designed to get students familiar with all 3 datasets. Queries are simple but make use of WHERE, LIKE and ORDER BY.

You have finished the lab when you have finished all queries.

Section 1: Sakila (Make Sakila the default database)

1. Which movies have a title containing the word "games"?
 2. Which movies are longer than 2 hours?
 3. Did any actors have a surname with "queen" somewhere in the name?
-

Section 2. World (Make default database)

4. Get a list of all the cities with over 1 million people, ordered alphabetically.
 5. What countries have a different local name?
-

Section 3. Basketball (Make default database)

6. List the ID of the players who won an award in 1989. (Challenge : Don't display duplicate ID's)
7. List the ID of the players who scored more than 400 points in less than 900 minutes played during the season 1998
8. Return the name and the number of wins at home of the teams with 'Chicago' in their name during the season 1994.

(Challenge : Return the name of the teams with 'C' in their name during the season 1994 where they won more games at home than away)
